

FAST FACTS

WHO WE ARE

Maergo is a national carrier that **simplifies and expedites** small parcel delivery. We enable brands to improve their **customer experience** by delivering **faster shipping** at a price point that **makes sense**.

WHAT WE DO

Efficient Expedited Delivery

2-3 day nationwide delivery achieved by accelerating the middle-mile via unused cargo space in passenger aircrafts on direct, point to point routes, bypassing the FedEx Express / UPS Air hub-and-spoke model.

Cost-Effective

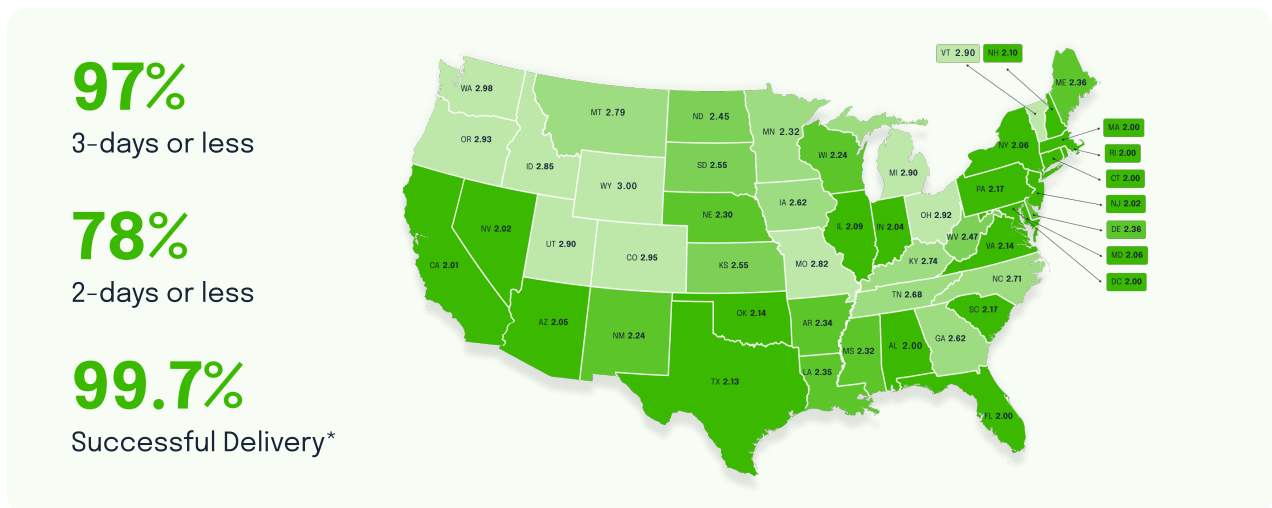

All-inclusive rates (no fuel surcharge, residential, DAS/EDAS accessorial fees) that are a fraction of the price of expedited services from FedEx & UPS.

Simpler

A single carrier relationship, integration, contract, tracking experience, and customer support.

Greener

Usage of passenger aircraft scheduled to fly regardless of cargo load means fewer carbon emissions than cargo only flights.

HOW IT WORKS

End-to-end Delivery

Asset light model, with 7 day a week pickups directly from client facility, regional micro sortation centers to rapidly sort by lane, utilization of empty cargo space in passenger aircraft for middle mile acceleration, and a network of trusted and scalable final mile delivery partners.

Customer Fit

We focus on the midsize to enterprise D2C brands and retailers with a typical mix of 1 - 10lbs parcels and a strategic aspiration to serve their customers with nationwide 2-3 day standard / free shipping without the need to invest in regional distribution centers

WHY WE DO IT

Faster shipping matters to consumers:

31%

of shoppers always leave a brand or retailer's site to check if the same product is available with faster and/or cheaper shipping on Amazon

42%

of shoppers cite delivery speed as one of the three most impact factors that influence their purchase decision when shopping online

17%

of consumers cite that slow delivery experiences has caused them to stop shopping on a brand / retailers site
